

Jerudong Park Medical Centre

COMPREHENSIVE THYROID AND NECK SURGERY CARE

FOR MORE INFO VISIT: WWW.JPMCBRUNEI.COM

OUR SERVICES

- Thyroid surgery
(benign and cancerous conditions)
- Thyroid nodules and cysts
- Neck lump assessment and evaluation
- Biopsy and diagnostic procedures

UNDERSTANDING NECK LUMPS

Not all neck lumps are serious or related to cancer. However, proper assessment is important to ensure safe and appropriate treatment.

- Thyroid-related swellings
- Neck cysts (congenital conditions)
- Enlarged lymph nodes
- Salivary gland conditions

PATIENT FOCUSED CARE INCLUDES

- Careful and accurate diagnosis
- Clear explanation in simple terms
- Personalised treatment planning
- Safe surgical management when needed
- Structured follow-up care for recovery and reassurance

WHEN SURGERY IS NEEDED

Surgery is only recommended when it is the safest and most effective option. When required, we prioritise:

- Safety and precision
- Experienced specialist surgeons
- Minimal risk and smooth recovery
- Close post-operative care

MEET THE EXPERTS

NELSON
JAISINGH

Consultant

DR HISHAM
MAJID

Consultant

Experienced surgeons dedicated to safe, high-quality patient outcomes.

SPECIALIST SURGICAL CARE SETTINGS

Hybrid theatre designed to ensure patient safety, surgical precision, and quality recovery care, supported by specialist teams.

PATIENT EXPERIENCE

"My surgery and recovery journey went smoothly, and I felt reassured throughout the entire process. Dr. Nelson and the team provided clear guidance before and after my procedure, including advice on scar care and recovery expectations.

The regular follow-up appointments gave me confidence, as the team monitored my healing progress and addressed any concerns I had along the way. The support and reassurance I received helped me recover comfortably and regain peace of mind.

After having the lump removed, I feel much more at ease and can now move forward with confidence."

Ms RN, Patient (Thyroid Surgery, Brunei)
